Innovative Full Stack Engineer offering 3 years of expertise in software development. Seasoned professional with background in full software development lifecycles. Quickly learns and masters new technologies while working in both team and independent settings.

## Work History

2020-03 -

2023-03

### Software Engineer

*Cellular Magician, London, Ontario*

- Focused on delivering multi-tenant POS systems for cellphone repair stores.
- Created data models and developed descriptive metadata schemas to meet functional and technical requirements.
- Wrote relational database queries for stored procedures, query optimization and performance tuning.
- Provided guidance and direction to less experienced staff in resolution of highly complex technical problems.
- Cooperated with other engineers to design performant queries and database schemas to support analytics reporting.

## Education

2012-09 -

2016-05

### Highschool Diploma

*Castlebrooke Secondary School - Brampton, ON*

2016-09 -

2020-04

### Bachelor's Degree: Computer Science

*University of Toronto - Toronto, ON*

- Willing to relocate: Anywhere Personal Details

## Hobbies

I have many hobbies but time only allows me to

PHP	Excellent
Java	Excellent
HTML5	Excellent
User Interface	Excellent
GraphQL	Excellent
Laravel	Excellent
Vue.js	Excellent
AWS	Excellent
APIs	Excellent
GitHub	Excellent
Git	Excellent

## Languages

Bangla - Fluent
Hindi - Intermediate
Urdu - Intermediate
French - Beginner
Spanish - Beginner

explore 1 or 2 of them on weekly basis. I love going out to try new foods. Exploring in general is very exciting to me whether it be travelling to new countries/cities or, visiting local attractions not many know of. I'm a movie/tv fanatic so I watch many shows and movies.

Very into physical fitness especially since my profession has me sitting for 8 hours a day. This entails hikes, jogs, going to the gym and eating healthy. Lastly, I would say I play video games when I have the chance. My favorite genres are usually adventure puzzel/platformers such as the legend of zelda series.
